PREFACE	275

Almost every collector of Israel numismatics - modern and ancient - knows about this book, the final and most comprehensive study of the ancient coins of Israel from the early Biblical times to the end of the Bar Kochba period. Ya'akov Meshorer's 356-page master work covers roughly three quarters of a millennium from the earliest coins issued in the Land of Israel during the Persian conquest, until the Bar Kochba revolt in the second century AD.

If you own this album-sized (27.5 x 21.5 cm - 10.9 x 8.4 inch) book, published in 2001 and now out of print, you are amongst the few lucky owners of the ultimate standard reference work on the coins of Biblical and post-Biblical Israel, which inspired and still inspire the designers of the coinage of the modern State of Israel from 1948 until this date.

If you are not the proud owner of A TREASURY OF JEWISH COINS by YA'AKOV MESHORER, the sales price of \$95.00 plus S&H (total price \$110.00) may have put you off.

C.O.I.N.S., the leading exporter of Israel numismatics to collectors worldwide since 1977, has just obtained from the Tel Aviv-based distributor - Sinai Publishing House - a very small quantity of publisher's copies of this

ultimate numismatic reference work. A "Publisher's Copy" is a copy owned by the publisher *without dust jacket* and *with an almost invisible or barely visible blemish* as a result of handling during the production process (printing and binding).

We are now offering A TREASURY OF JEWISH COINS by the late YA'AKOV MESHORER to our customers, on a "first come, first take" basis, for the special one-time price of **\$59.00 only, worldwide shipping included**. After our supply will be depleted, this book will no longer be available, as it is no longer printed.
